

# EVANS

Delivery Company, Inc.

Evans Delivery Company, Inc. began a "Go Green Initiative" in 2009 by transmitting invoices and paperwork through email, electronic data interface and file transfer protocols. To continue our "Go Green Initiative" in 2011 we will no longer be able to forward original paperwork out with our invoices.

To participate in saving the environment we scan all paperwork into a Document Imaging system which allows us to then recycle all paperwork received. Beginning January 31, 2011 we will only provide copies of paperwork.

We are also asking all of our customers to jump on board with our "Go Green Initiative" and agree to accept your invoices electronically. By accepting one of the options below you too will be able to save our environment!!

- EMAIL
- EDI (electronic data interface)
- FTP (file transfer protocol)

Please contact [creditdepartment@evansdelivery.com](mailto:creditdepartment@evansdelivery.com) or Terry Samson at 877-685-9262 ext. 2013 to elect one of the alternative invoicing options.
